Dear Tom:

Eda and I want to thank you very much for the incredible job you did for us, from the initial landscape design right on through the supervision and completion of the project.

It gave us great comfort while we were away in Florida to know that the project was being overseen by yourself. We appreciated all the pictures you took showing the progress of the job along with the many phone calls you made to discuss any changes that needed our attention.

You were extremely easy to talk to and that in and of itself gave us great confidence that you were looking out for our best interest.

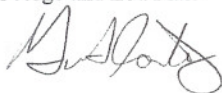

Since the completion many of our friends have commented on how wonderful the project had turned out. Many of our neighbors have come by to let us know how much our landscape has increased the beauty of our street. Some of these neighbors we never met before. I guess it shows the effect it has made on them.

We hope our project provides many new projects for you.

Please do not hesitate to use us as a reference for future projects.

Sincerely,

George and Eda Flate
